Parowan

Parowan, August 14.
The following named persons were duly elected delegates to the Republican County Convention, to be held in Cedar City August 15th: Silas J. Ward, Morgan Richards, Wilford Day, E. L. Clark, and H. M. Hendrickson.

Parowan is soon to have one of the best water systems in the State of Utah. Engineer Marion F. Lyman has the installation of this under hand and will see that every step taken is just as it should be, working in harmony with the members of the City Council and the citizens of our city. The three and four mile springs, from which it was thought at first to take the supply of water, have been abandoned, and the six mile spring, a clear, cool, sparkling fountain, whose capacity is 300 gallons per minute, will be reached for the supply. The greater part of the trench is constructed, furnishing employment to our young men. Mr. Herman D. Bayles, stated today that the excavating of the cavity for the settling tank is to be started at once, this will be 25x35x12 feet in size. Engineer Lyman, Wm. A. Evans, et al drove up to main canyon spring to measure that stream.

W. L. Cook and Lawyer Houtz of Salt Lake City were in our city last week on business and have acquired an option on certain land belonging to the Cop M. & M. Co., just for what purpose is not known.

Kanarraville.

Kanarra, Aug. 14, 1912.
Mae Kay of Mona is here visiting her parents, Mr. and Mrs. James Stapley, and other relatives.

Mr. and Mrs. James Robb are here visiting Mrs. Robb's parents. They have a very sick child necessitating the call of the doctor who was here from four to six o'clock this morning. At latest report the child was some better.

J. H. Aldous started his head-r to work Monday, giving entire satisfaction.

We had a nice shower today lasting from 6 o 11 o'clock. No thunder nor wind.

The thresher is expected to commence at New Harmony about the 20th of this month with John Platt in charge.

Our second cutting of alfalfa is fine. Some have already been cutting and hauling.

Geo. Davis has been nursing a sore leg for the past four weeks. He was helping take a hay rack from a wagon and in some way it slipped and fell a short distance lighting on his leg between the knee and ankle. It is feared he has the bone cracked.

Hon. Thos. Judd returned Saturday from Salt Lake City, where he had been to attend to business connected with the State Board of Horticulture, of which he is president. Enroute to Salt Lake City Mr. Judd looked over conditions in Iron, Beaver and Millard counties. He reports fruit crops in these counties in splendid condition. He also says a great change is taking place in the desert places owing to so many taking up dry land farms.—Washington County News.

Summit.

Summit, Aug. 14.
Isaac Chamberlain of Kanab has recently purchased land and water in Summit field and is coming with his family to make their home here. William Lawrence of Erda has also bought farming land here with the intention of moving here in the near future. We are pleased to welcome good citizens to our little town as there is room for many more families here and all who are acquainted with our land say there is none better in the state.

Mrs. Catherine Dalley is very sick with erysipelas.

Pierce Cheney and family arrived here August 7, being among the many who were driven from their homes in Mexico. Mrs. Cheney is a daughter of Mrs. Ann Pratt of this place.

Harvesting has begun in earnest and the two harvesters, which are run by Philip and Alex Dalley are busy keeping up with the ripening grain.

MANY SUBJECTS FOR FARM CONGRESS

(Continued from first page.)
money-losing crops, take on money making crops, and utilize power, stock, feed and help to the best profitable advantage.

Scientific breeding and investigation of drought-resistance plants, and researches that have been productive of increasing the yield and improving the crop.

Agricultural science both in college and field, and the problems confronting the agricultural college and experiment station workers in subhumid district or where drought is frequent.

Home economics, rural home nursing, sanitation, domestic science, labor-saving devices, neighborhood clubs, rural schools, rural churches, entertainments for boys and girls, gardening and poultry raising, and every problem confronting the women on the farm.

All sessions will be open to all delegates who wish to hear the addresses, and arrangements have been made for the entertainment of the thousands who will attend with music by the famous Cardston Choral Society of 150 trained voices, the Lethbridge Highlander bagpipers, several famous brass bands of the west, a frontier pyrotechnic drama one evening, and the greatest exposition of dry-farmed products ever collected on the North America continent, which will be opened complete in every detail two days before the assembling of the Congress.

Special railway rates have been made by the leading railroads, and connecting lines are daily announcing lowest rates ever made, and this is the opportunity of a lifetime to visit western Canada, which is famous as one of the world's greatest granaries and livestock regions.

Planting the Poppies.

When the daffodils are in flower the garden begins to regain the attractions which it lost in winter, and the tasks which the spring imposes are entered on with zest. Among the most important is the sowing of annuals. Two very common mistakes should be avoided. One is sowing too thickly and the other sowing too deeply. An annual such as a Shirley poppy, when well grown will occupy a square foot of ground at least, yet in that space dozens of not scores, of seeds are often sown. The result is a tremendous waste, not only of seeds, but also of plants, for all that do grow must be spilt, unless they are thinned quickly and severely.

Iron County Fair

Sept. 17, 18, 19.

This will be the most successful Fair ever held in Southern Utah. The premium list will be the biggest and contain the largest and greatest number of premiums ever offered in Iron County. Our premium list is now in the hands of the publisher, copies of which will be sent to every town in Southern Utah.

Base Ball and Other Sports

Five Base Ball Teams from different towns will compete for our liral purse and the cup. Good purses will be provided for all branches of athletic sports.

Special Features

Among the special features will be the Dry Land Farm Exhibit. A Grand Live Stock Show, which will be judged by a professor from the Agricultural College of Utah.

Horse Races

will be pulled off every afternoon at which some of the best horses of the state will compete.

Each town is expected to furnish its Share of the Exhibit.

CRUELTY TO ANIMALS IS EXPENSIVE

According to a recent statement by Dr. William R. Callicotte, the Colorado state superintendent of moral and humane education, the United States loses annually, through cruelty to dumb beasts, \$2,000,000,000. He declares that such cruelty not only causes this immense economic loss to the country, but is also one of the chief causes of crime.

"Unless children learn to feel for the suffering animals, we may be sure that they will never lead helpful, upright lives when they become older. They must be sensitized to suffering, and the best way to arouse the best in them is to appeal to them to aid animals which cannot aid themselves. When every child has learned to be thoughtful of these friends we will no longer need prisons and fines, for there will be no criminals."

Dr. Callicotte goes on to say that we lose, annually, \$100,000,000 from mistreatment of cattle, the same amount for not caring for horses, \$150,000,000 from giving dairy cows unsanitary quarters and poor food, and \$800,000,000 because of the destruction of birds. If proper treatment were accorded these creatures, he claims, the cost of living would be reduced 25 per cent, and we would also be able to prevent 50 per cent. of the diseases which ravage the country.—Our Dumb Animals.

Mainly.

"Pop, what's the difference between an expert financier and a clumsy swindler?"

"The main difference is that the clumsy swindler is the man who is caught with the goods."

Do you know
What this stands for?

It means quality
What means quality?

The Consolidated Wagon and Machine Co.

It's the largest retail implement and vehicle house in the world. Do you know why? Well we will tell you; because they always sell quality goods.

The best is always the cheapest in the long run. Do you believe this? Then call on us for your wants in the Implement Vehicle and Hardware lines.

Bain & John Deere Wagons, Hesse Buggies, McCormick Mowers, Rakes, and Binders. Stewart Stoves and Ranges. Stove Insurance. Come and let us tell you about it.

The house that sells the goods. More goods sold this year than all competitors combined; yes, four times as many.

Why? There is a Reason--QUALITY
